Michael Francis Cartwright and Shona Nunan

We are two Australian artists who have been together for over thirty five years. We have been sculpting, drawing and painting since we were children following in the footsteps of our fathers who were painters. Our total commitment to our art came when we went to Carrara in 1984, two years after leaving college and recently married. It was that point of no return.

Over the years we have had exhibitions in some wonderful galleries: Canberra Contemporary Art Space and Solander Gallery in Canberra, Holdsworth Galleries in Sydney, Mossgreen Gallery, Meridian Sculpture Gallery, Ivanyi Gallery and Renard Wardell Gallery in Melbourne, Mandarin Gallery in Hong Kong and Art 2 in Singapore, Kwai Fung Hin in Hong Kong, Kuan's Living in Taiwan and exhibitions in Thailand, Belgium, Ireland and France.

One day, in 2002, we bought a little house and studios in the Tuscan mountains near Lucca with access to Pietrasanta where we carve marble and cast our work in bronze at the art foundries. In 2015 we bought our home in the little village of Correns, some 50 kilometres inland from Saint-Tropez. We are currently converting an old village home into our new studios which will be completed in June 2019.

Our art has been described as transcultural as we take from the journey of our forebears to Australia and add to it our own nomadic journey. This year we were invited to become members of the Royal Sculpture Society and in June our family was invited by the Australian High Commission to help celebrate its 100 years in the United Kingdom at the magnificent Australia House with an exhibition of sculpture titled 'Journeys'.

You are always welcome to visit us in our studios but please call first to be sure we are home!
